01 · ABOUT THE COMPANY

Who We Are

Building today. Connecting tomorrow.

Sinhala Corporation Private Limited is focused on infrastructure and civil construction, with an emphasis on disciplined execution, quality workmanship, safety and dependable delivery.

ENGINEERED ENDURING INFRASTRUCTURES

A focused approach to highway, civil and allied infrastructure works — built around quality, safety, coordination and dependable delivery.

What We Build

9 CORE DISCIPLINES

DWG-01

Expressways

Multi-lane carriageway construction from earthworks through pavement.

DWG-02

Highway widening

Carriageway widening and strengthening on existing alignments.

DWG-03

Retaining & toe walls

Slope stabilisation and toe protection along embankments.

DWG-04

Drainage systems

RCC highway drains, covered drains and cross-drainage works.

DWG-05

Bridges & culverts

Minor bridge and culvert works across drainage crossings.

DWG-06

Highway structures

Gantries, sign structures and allied highway furniture works.

DWG-07

Hill slope protection

Breast walls, soil nailing, surface drainage and bio-engineering measures for slope stability.

DWG-08

Wire mesh & gabion facing

Gabion and mesh facing works for surface stabilisation and rockfall control.

DWG-09

Breast & retaining walls

Cantilever and gravity walls holding back cut faces and embankments.

Leadership Behind the Business

Experienced leadership driving sustainable growth and delivering enduring value.

Governance & Process Discipline

03 · WHAT WE DO

Two Divisions. One Integrated Capability.

Our Group brings together a long-standing steel trading business and an infrastructure execution capability, serving the evolving requirements of construction and infrastructure projects.

01

Steel Trading Division

Our Group company and sister concern, M/s. Sinhal Trading Company Pvt. Ltd., brings more than 50 years of steel-trading experience, supported by procurement, quality inspection and project-focused logistics.

02

Infrastructure Division

Sinhals Corporation's infrastructure division is focused on civil and highway-related works requiring disciplined planning, coordinated execution, quality workmanship and dependable delivery.

STEEL TRADING DIVISION

For more than 50 years, our Group company and sister concern, M/s. Sinhal Trading Company Pvt. Ltd., has built a reputation for reliability, quality and timely service. It supplies steel and allied materials for infrastructure, construction and industrial projects. Its company profile describes a comprehensive logistics network, strict quality inspections, pre-qualified supply reach across West Bengal, Orissa, Bihar, Jharkhand, Sikkim and the North East, and a repeat-client base accounting for approximately 70–80% of business.
